Professional Summary

Detail-oriented and passionate Full-Stack Developer with 4+ years of experience in building scalable web applications using modern technologies like Next.js, React, Supabase, and Tailwind CSS. Proficient in both frontend and backend development, with hands-on experience in PostgreSQL, GraphQL, and Node.js. Strong problem-solving mindset with a focus on performance, UX, and clean code. Eager to contribute to impactful projects in a fast-paced team environment.

Professional Experience

Full-Stack Developer

Zonaster Technologies | Jan 2023 – Present

- Developed responsive and SEO-optimized web apps using Next.js and Tailwind CSS.
- Implemented user authentication, real-time updates, and CRUD functionality using Supabase.
- Created dynamic API routes and server-side logic for robust backend features.
- Designed relational data models and managed queries using PostgreSQL.
- Integrated GraphQL APIs and optimized client-side data fetching with Apollo Client.
- Ensured performance, responsiveness, and cross-browser compatibility across all major devices.
- Collaborated with designers using Figma and followed Agile practices to deliver on time.

Education

Bachelor of Information Technology Kampala International University

Technical Skills

- Frontend: JavaScript, React.js, Next.js, Tailwind CSS - Backend: Python, Node.js, Express.js - Mobile: React Native - Tools: Git, GitHub, Figma, Supabase, PostgreSQL
- Others: Responsive Design, REST APIs, GraphQL, Agile Development

Projects

Yomovies App – yomovies.vercel.app

A movie browsing app built with Next.js, featuring dynamic routing, movie previews, and responsive design.

- Integrated third-party APIs for real-time movie data.
- Tailwind CSS for fast, clean styling and layout.

ChefKiram Recipe App – chefkiram.netlify.app

A full-stack recipe application where users can browse, add, and search recipes.

- Built with React, with Supabase for auth and database.
- Designed for responsiveness and ease of use.
